WHO ARE WE?

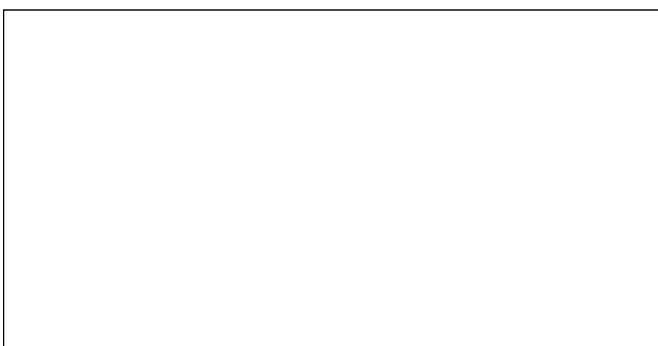

Birds Australia North Queensland (BANQ) is a regional group of the national organisation Birds Australia (Royal Australasian Ornithologists Union, RAOU), formed in 1901 - the oldest Australian society concerned with national and international bird study and conservation.

The BANQ area covers Queensland from Ayr north to the Torres Strait Islands and west to the Northern Territory border. Area representatives are based in Townsville, Mount Isa, Cairns, Atherton Tableland, Mossman/ Daintree, and Cape York.

Members receive a quarterly newsletter *Contact Call* and enjoy Australia's best bird magazine *Wingspan*. Regular field trips and campouts cater for all levels of expertise from beginner to professional and emphasise fun as well as worthwhile projects.

INFORMATION

Cardwell District is centred on an historic township est. 1864. It is one of Queensland's earliest European settlements and the gateway to some of Australia's richest and most majestic tropical landscapes and wilderness areas. On the edge of the Coral Sea - with Australia's largest National Park Island, World Heritage listed Hinchinbrook Island situated just offshore - it is a wonderful birding area. The varied habitats within about 30km of the town attract a large variety of resident and migratory birds.

The diverse landscape includes areas of mangrove forests, mudflats, beaches and estuaries to lowland coastal Melaleuca forests, swamps and wetlands, on through open and closed woodland, vine thickets and lush tropical rainforests. Waterfalls and swimming holes abound. Amongst all this natural beauty are developed areas of plantation pine forest, cane and tropical fruit production.
